HERMITEX[®] 300 **AEROSPACE WIPING CLOTHS**

PRODUCT SPECIFICATIONS

HERMITEX[®] 300 Aerospace Wipes is manufactured from 100% purified cotton fibers and contains no silicone. It's high quality, cotton fibers are low-lint and non-abrasive, yet strong enough to withstand industrial wiping and polishing, even with a variety of strong solvents. The textured weave of HERMITEX[®] provides more surface area for trapping contaminants and moisture, with the ability to absorb more than 400 times its dry weight in liquids.

Material Specifications:

Fiber: 100% cotton fibers
Color: Off-White, White
Weight: .43 oz. sq. yd.
Absorbency Time: 2 seconds

HERMITEX[®] meets the following Wiping Cloth Specifications:

- Qualified by Performance Review Institute (PRI)
- Meets or Exceeds SAE Specification AMS3819C, Class 1, Grade A, Form 1
- BMS15-5G, Class A Specifications
- CCC-C-440E
- Bleached Cheesecloth for Food Contact per FDA 21 CFR 176.170 Condition "A".
- Each lot is certified prior to shipping from our facility.

BHTX-14-3 is 14x6 Crimped Gauze Rolls, Crimp and Shrunk to approximately 9" wide and cut to 14", 100 pcs per roll, 3 plied and not less than 15% crimped.

Cloths: Cleaning for Aircraft primary and secondary structural surfaces.

PRODUCT SAFETY INFORMATION

The product supplied to you is non-hazardous; therefore, a MSDS or SDS is **not** provided. The following; however, is Product Safety Information for the product supplied to you by DeRoyal Textiles.

1. Product and Company Identification

Type Product:

HERMITEX®300 AEROSPACE WIPES

Part numbers:

CCHERMITEX

Company Profile:

RagLady, Inc.

1415 Sonny Schulz Blvd, Ste A

Stevensville, MD 21666

Phone Number: 866-724-7787

2. Hazard Identification

Hazard ID:

No Hazardous components known to be present

3. Composition

Composition:

Fabric woven from 100% cotton yarns

4. First Aid Measures

Eye Contact:

As with normal procedures for a foreign object in eye, rinse eyes with water at least 15 minutes. If irritation persists, contact a physician.

5. Fire Fighting Information

a. Material may burn upon exposure to open flames.

b. Flashpoint of cotton is approximately 210 degrees Celsius or 410 degrees Fahrenheit.

c. Extinguish flame with water, carbon dioxide, or dry chemical. Continue to soak with water as cotton may smolder.

6. Accidental Release Measures

N/A

Store in a dry area. With cotton, long damp periods promote mildew and mold. Avoid long periods of direct sunshine.

8. Exposure controls / personal protection

No exposure concerns. No PELs. No TLVs. No PPEs.

9. Physical and chemical properties N / A

10. Stability and reactivity N / A

11. Toxicological information N / A

12. Ecological information Cotton is biodegradable.

13. Disposal Considerations

Cotton is biodegradable, but dispose of in accordance with all Federal, State, and Local regulations.

14. Transport Information N / A

15. Regulatory Information NONE

16. Other Information

This product for which you have requested a MSDS or a SDS should be considered an "article" as specified by the Hazard Communication Standard and is exempt from requirements of the Standard according to OSHA.

As defined in 29 CFR 1910.1200 (c), an article is "...a manufactured item other than a fluid or particle: (I) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, *e.g.*, minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees."

Shelf Life of HERMITEX®300 AREOSPACE WIPES

Cotton products have a extremely long shelf life. As can be expected; however, the shelf life can be affected by storage conditions. Avoid storage in extremely hot or damp areas. Long period of direct sunlight can weaken cotton strength. For these reasons, DeRoyal Textiles, does not designate a specific shelf life for our products. Although cotton is biodegradable, it can last for many years.
